

PP Møbler

PP33

The Sewing Table is a classic piece of furniture that is created to serve the very specific purpose of storing and organizing the tools, yarn and threads needed for home sewing. It is a testimony to Wegner's great respect for tradition and to his efforts to uphold the many specialised crafts that today are nearly extinct in many civilisations.

But the Sewing Table is also an example of how Wegner can never leave a need for good design and genuine products unfulfilled.

Design by Hans J. Wegner 1950
