

PP35 TRAY TABLE

The Tray Table stands as a symbol of the most refined balance between functionalism and purity, one could possibly obtain in a solid wood product. It seems to be a logic truth that the static foldable frame will hold the modest wooden tray with elegance and grace for eternity.

The simple tray made of solid wood is unattached, and the table frame can easily be folded and put away. An additional tray can even be placed as a shelf resting on the lower bars.

This practical and usable product is based on the modern geometrical lines of the pp66 Chinese Chair. This pure and logic design concept is executed so that it is almost a non-design, and thus the Tray Table stands as a universal product that will fit in almost any interior.

pp35 is available with and additional tray to rest on the lower bars.

Design by Hans J. Wegner 1946
