## CARMINA COFFEE TABLE

collection of small coffee tables with a leg that daintily curls above the edge of the top. technically speaking it is just an object - and quite a plain one at that - made of lacquered metal, but the use of colour and this charming poetical gesture transform it into a piece that fosters peace and stimulates the imagination.

steel rod structure and shelf in polyester powder coated aluminum sheet in the colors: nude, sand, black or burgundy. round upper shelf. indoor use only.

Design by Ludovica + Roberto Palomba
