

**PP Møbler**

**PP58/3**

The three-legged version of pp58 is named pp58/3. More simple in shape and stackable, but yet with the same basic characteristics as its predecessor: Excellent comfort, practical and with a strength and durability to outlast daily use for generations.

Even though the chair only has three legs, it is remarkably stable, and the triangular rail structure under the seat allows the simplest possible construction of the chair. This makes pp58/3 a beautiful and elegant chair for the dining table, and like pp58 it is the result of Wegner's experience from a long life as one of the world's greatest furniture designers.

pp58/3 is a perfect everyday chair, and its ability to stack makes it even more usable for perhaps an office space or lunchroom.

pp58/3 comes with either a veneered wooden seat or an upholstered seat.

Design by Hans J. Wegner 1987
