BEETLE DINING CHAIR - Un Upholstered

The Beetle Chair has since its introduction in 2013 being well received by end-consumers as well as interior architects. Due to its appealing design, outstanding comfort and unique customisation possibilities, the chair can be seen in many of the most renowned restaurants around the world. The fully upholstered chair carries strong references to the design duo GamFratesi's inspirational source: the insect world, more specific the world of beetles. Not just the name indicates their inspiration, but also the characteristic elements of the beetles' sections have been interpreted - shape, shells, sutures, rigid outside and soft inside. The wide range of upholstery options and different bases make it possible to put your personal touch to the chair and create one of its kind.
